

Vascular Dissecting Forceps

Improving
your
efficiency

These unique Vascular Dissecting Forceps feature curved or angulated 0.5 mm tips with high gloss polished jaws to guarantee smooth and gentle manipulation of the dissected tissue – combined with the reliable **S&T** quality

Available in 4 different lengths CURVED		
Art. No.	Art. Code	Description
00925	VDF-10	10.5 cm length
00926	VDF-12	12.5 cm length
00927	VDF-14	14.5 cm length
00928	VDF-16	16.0 cm length

“The special Vascular Dissecting Forceps of S&T are used as fine dissectors for precision work around the small vessels such as perforators during operation involving perforator flaps and other flaps. These dissectors allow for precision dissection with minimal trauma to the adjacent tissue”

David W. Chang, M.D., F.A.C.S.
MD Anderson Cancer Center
Houston, Texas

Available in 3 different lengths ANGULATED		
Art. No.	Art. Code	Description
00933	VDFA-11	11.5 cm length
00934	VDFA-13	13.5 cm length
00935	VDFA-15	15.5 cm length
